POST TEST & PROOF OF COMPLETION**

Please PRINT Name (Last Name, First):	ID No.:	Date	Department #: <b>160</b>
	Location:	Area/Unit:	Pay Location:

**True or False:** Please circle T if the statement is true, and circle F if the statement is false.  
You must score 7 correct answers to receive credit for the Mandatory Supplemental Fire/Life Safety Training.

- T    F    1.    The Supplemental Fire/Life Safety Training is a result of a 1999 Life Safety Code Equivalency granted by Joint Commission on Accreditation of Healthcare Organizations (JCAHO).
- T    F    2.    The Emergency Preparedness Training (EPT) certificate is good for four years.
- T    F    3.    The Fire Watch staff patrol hospital areas at least two times per shift to monitor hazardous conditions.
- T    F    4.    The Fire Watch staff does not report building deficiencies such as exit lights out and blocked corridors to Facilities Management.
- T    F    5.    The Fire Watch staff checks fire extinguishers.
- T    F    6.    Two fire drills per shift per quarter are conducted in the LAC+USC Medical Center.
- T    F    7.    The extra fire drills are performed to compensate for an inadequate fire alarm system.
- T    F    8.    Supplementary Fire/Life Safety Training is required annually.
- T    F    9.    There are fire sprinklers throughout all the buildings in the LAC+USC Medical Center.
- T    F    10.   There are stairwells in the facility that do not go directly to the outside.

**This workforce member has completed the LAC+USC Network Orientation/Reorientation Handbook and has received a passing score of 70% or better on the Post Test.**
